

Tiger Team Engineering (TTE) is an SDVOSB that helps defense and aerospace programs achieve On-Time Delivery through precise delivery assurance and supplier quality oversight. We deploy on-site engineering leadership and supplier recovery teams to eliminate delays, resolve production bottlenecks, and stabilize struggling suppliers.

Our integrated solutions combine analytics, risk management, quality, and continuous improvement with post-award procurement and lifecycle sustainment support.

Past Performance

TTE has proven experience in the commercial and defense sectors:

- L3Harris
- Boeing
- US Marine Corps

Sample Projects:

- Delivery Assurance
- Supply Chain Optimization
- Supplier Surveillance & Oversight
- Procurement Optimization
- Diminishing Manufacturing Sources & Material Shortages (DMSMS)
- Interim Contractor Logistics Support (ICLS)
- Lifecycle Management Support
- Engineering Support / Services

Core Competencies

- ▶ Engineering Services & Support
- ▶ On-Time-Delivery
- ▶ Supplier Oversight & Performance
- ▶ Supply Chain Management
- ▶ Supplier Base Management
- ▶ Supplier Quality Management

Differentiators

- Boosted On-Time Delivery by **60%**
- Accelerated Lead-Times by **55%**
- Reduced Costs & Waste by **44%**
- Elevated Production Rates by **35%**
- Streamlined Procurement by **48%**
- Supplier Oversight – **100 Suppliers**
- Resolved Engineering Issues by **30%**
- SDVOSB
